Temperament	Yards	Crush	Paddock
	Quiet: 60 head	Quiet: 50 head	Temperament not assessed in
	Slightly Stirry: 20 head	Slightly Stirry: 30 head	Paddock
	Steers were generally very good to handle, they are typical of station cattle used to big areas that like to run through gateways and got slightly stirry when under pressure In the race. These steers should be no problems for most people with half decent facilities and half decent stockmanship, I would be more than happy to send to most of my clients, however if you want docile cattle these are not for you.		
Handled With	Bikes , On foot , Vehicles		

Assessor Comments	This is the Top draft out of 620 steers being offered by "Yammatree" today in a weight bracket of 390-510 kg . There is 160 in this draft being sold in two even runs of 80 out the gate. These steers have done very well through the summer and are of the right frame to continue very good weight gains for prospective purchaser. The Yammatree cattle are highly sort after
-------------------	---

by major feedlots throughout the industry and we have had very good feedback from previous purchasers. Observed 3 steers with a slight blue eye deemed not detrimental to the health of the animal and would pass into most feedlot tests I have done. Purchaser has option to buy \$/head or c/kg.
