Assessor Comments Excellent quality even line, Vendor bred, Hicks composite steer calves, presenting in strong store to forward fresh condition to av 274 kg, after being removed from their mothers overnight. By the Hicks composite bulls, out of large frame F1 & F2 cows, these calves display plenty of shape, bone & muscle, representing the 2nd draft, all weighing between 250- 300kg. Calves are a mixture of red, black, black & red bldys, been returned to the cows until delivery on very fresh improved pastures. Cold country bred calves that have not missed a beat and will not disappoint. Please note Vendor has 2 other

lines in this sale, representing the complete spring drop. Note delivery days.
