Handled With	Good to handle in the yards, easy to draft and walk through. All steers were well behaved throughout the weighing and assessment process, a few steers did a bit of stomping on the scales, listed above as slightly stirry. Overall, very good young steers to handle that will only improve with age and education. Bikes , Dogs , On foot , Vehicles
Assessor Comments	Healthy young calves that are the tops of their drop. These are a very stylish pen of steers from a self replacing herd using Llandarlo Angus genetics. These calves have plenty of frame with a nice soft, easy doing style about them. Cattle that will go on and perform. Females are retained for bone, depth & length which is seen to be past on to these young steers. Ideal cattle to take through to the Spring as Bullocks, or do a quick feeder job on. Presenting in store condition, these cattle will go forward on delivery with some fresh feed underneath them. 100% Grass only Fed, Antibiotic Free. Buyers please Note. Around 15% steers presented with a splash of white on/near their flank. 1 Eye patched left on - to be checked at delivery. 1 Steer with white up to his brisket - option to leave out. Please see photos & video.
