|                    | Very kind young heifers that were a pleasure to handle. Well behaved in the yards, easy to draft and walk through. All females were easy throughout the weighing and assessment process, a few anxious heifers did a bit of stomping on the scales, listed above as slightly stirry. Overall, very good young future breeders to handle that will only improve with age and education.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                           |                                     |

| Assessor Comments  | Very stylish pen of young Heifers, Perfectly suited to a future breeder job, and getting very close to a joinable weight for someone that wanted to calve them down as 2 year olds. From a self replacing herd using Llandarlo Angus genetics. These calves have plenty of frame with a nice soft, easy doing, maternal style about them. These young females will go on and perform. The Mitchell family aim to produce cattle with good bone, depth & length which are traits these young females all carry. Presenting in fresh, shiny store condition with plenty of them already starting to cycle. Very nice cattle that will go forward on delivery. 100% Grass Fed, Antibiotic Free. Buyers please Note. 9 heifers presented with white flanks, one white belly who comes with the option to leave out. Please see photos & video |                                           |                                     |
| Assessor           | <b>Katie Lewis (Level 2 Accredited)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                           |                                     |
