| Handled With | Bikes , On foot , Vehicles |
|--------------|----------------------------|
|--------------|----------------------------|

| Assessor Comments | A line of 5 healthy well reared weaned bull calves sired by Chantlan bulls. The calves consist of 3 Murray Grey X Friesian, |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------|
|-------------------|-----------------------------------------------------------------------------------------------------------------------------|

2 Angus X Friesian calves. The calves have been drenched with Dectomax and Arrest and had their first 7 in 1 needle and they also were vaccinated with another 7 in 1 and Piliguard. These calves are well grown for their age, and would make ideal calves to turn out and take advantage of all your upcoming autumn feed. The calves are in store condition and would stack on the weight given the right feed.
