Assessor Comments A nice line of vendor bred of Limousin steers that present in store condition and ready to bounce ahead on the right nutrition. Steers show alot of muscle and shape being sired by leading french bulls. These calves are known for high weight gains in feedlots and won many awards including Teys Jindalee Awards last year. These steers were yard weaned in October then marked late November by knife which some steers still show some bully traits eg pizzle and head as seen in photos and video. 3-4 steers were treated for pink eye two weeks and are healing well with some scarring. Calves have run and became stirry in yards being first time since marking.
