	Slightly Stirry: 3 head	Slightly Stirry: 6 head	Paddock
	Heifers were generally good to handle, all moving through yards without any issues, with about 6 heifers becoming agitated in the crush. Heifers where photographed in larger holding paddock and remained calm while in the paddock.		

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A great line of quality bred EU vendor bred heifers. With the backing of quality genetics for over a decade of Landfall and some Lawsons genetics, with a focus on producing moderate to large frame Angus breeders. This draft has had the tail removed, providing tight weight range and even line. Heifers are presented in fresh forward store condition, and give the option to join, or grow out to trade and feeder weights. All heifers are pregnancy tested empty on the 25/2/22, by Warrnambool Veterinary, certificate available. Two heifers noted have old pink eye scarring, considered minor and not detrimental to their sight. The Glare family spare no expense on breeding, sourcing quality Landfall and Lawsons genetics, with a focus on producing medium to large frame breeders, with above average growth and positive fats. A nicely presented line of quality vendor bred / EU heifers that will provide number of marketing options in the future.
