Assessor Comments	A good line of well grown Friesian cross steers. Drafted off as having various degrees of Jersey influence (mostly only small %). Well grown for their age and quite forward, have been putting on a kilo a day since weighing at end of December. Ideal to turn into grass fed bullocks this spring or to feed for a quicker return.Eyes in these steers are good. Fit, healthy just need some good quality feed to turn into good heavy manufacturing beef.
