Assessor Comments	40 Good quality crossbred mixed sex weaners in forward store condition. Ideal to put onto fresh feed to grow out. Cattle are normally grown out to kill weights however, due to the softness on the calves the Vendor has decided to wean a bit earlier and offer for sale a good line of weaners for buyers to take advantage of. Assessment was conducted on Bushy Park Station, 130 km North east of Alice Springs. Cattle will be trucked 1700km to delivery point at Southern Livestock Exchange, Mt Compass SA. Buyers to make own assessment of shrinkage at delivery point. 1 Bull noticed to have a torn ear from ear tag.
