	Cattle are handled well at weaning and are worked in a relaxed quiet manner. A couple got a little excited in the crush because of being yarded a couple of times for the preg test & then assessment, but were still very easy to block when needed, & showing no aggression. Very easy cattle to handle.					
Handled With	Bikes , Dogs , Horses					
Assessor Comments	A top quality line of vendor bred No-1 heifers. These magnificent heifers are bred from a quality cow herd base with only top quality Santa sires being used over them. Presenting in mint condition; these heifers are showing plenty of softness & depth providing that easy doing ability. Vet preg tested in calf, these beautiful matrons have their whole life in front of them and are ready to take through & calve; easily complimenting any good herd! The vendor is only selling as they are surplus to requirements & in the wrong calving window; don't miss this rare opportunity to purchase these young females! **Please Note** There is a deck of the same vendor Santa PTIC Cows in the same sale today** ** Some scarring from fly on some of the heifers but NOT detrimental!
