	Frame		Quality Grades		Store Condition	
	Large	80%	Very Good	73%	Fwd Prime	100%
	Medium	20%	Good	27%		
Temperament	Yards		Crush		Paddock	
	Quiet: 11 head		Quiet: 11 head		Temperament not assessed in Paddock	
	Very quiet cattle that have been paddock fed and handled using LSS handling techniques. Very good to handle in and through the yards. A couple of cows I would describe as stubborn in the race and took some coaching to get into the crush. Not stirry at all - just stubborn.					
Handled With	Bikes , Dogs , On foot					
Assessor Comments	A very good quality line of mostly large frame PTIC cows in prime condition. Nine of the eleven cows are straight Angus with two cows just showing a small amount of cross. They range from one heifer rising two years old, 5 x rising 3 years, 3 head four to six years old with two head rising 9 and 10 years. They are VET PTIC to very good quality Sandon Glenoch and NB Genetics registered Angus bulls. Nine head are 2 - 3 months in calf and 2 head 5 - 6 months in calf. Their months in calf was recorded against their tag and is available for buyer post sale if required. They were excellent to handle in the yards and good through the race and crush. They have been handled using Low stress stock handling techniques. They have a full Vitamin B12, ADE and 7 in 1 vaccination history (including boosters) and have had access to fly back rubbers. They are mostly large frame cows with a LWR of 502 - 730 kg full weigh and are for sale as their calving falls outside vendors desired period.					
Assessor	Andrew Wilkie (Level 1 Accredited) Phone: 0427 011 608
