Assessor Comments

Smart line of 1st Calf NSM Angus Heifers with calves at foot by the Angus bull presenting in store condition due to a combination of a wet paddock and the heifers putting everything into their calves. Heifers weighed 401kg to 542kg to average 455kg 16 hours off feed, calves weighed 65kg to 128kg to average 93kg, with 9 heifers and 13 males. Line includes 4 Angus baldy heifers and 3 with small white markings around the udder area, some heifers with rub marks from Buffalo fly. The sale of these females presents a great opportunity to secure quality Angus breeders with calves at foot with years of breeding ahead of them. Sister lot of 25 x 25 in same sale.
