|                    | These heifers have been well handled on a rotational grazing programe. The heifers have always been handled quietly both in the yards and paddock. The cattle were good to handle in the yards . In the paddock the cattle have been grazed behind a single hot wire                                                                                                                                                                                                                                                                                                                               |                |                                     |

| Assessor Comments  | These heifers were drafted to be retained by vendor and they sold the balance of this mob earlier in the year. A very nice line of Angus heifers that were purchased from the breeder and are one mark heifers. Heifers with plenty of breeding being by TeMania bulls out of TeMania , Rennylea , Lawson blood cows. these heifers will grow into great future breeders. Heifers are well grown and to calve in a tight window to GlenMorgan Angus Bulls. Cattle are upto date on Animal health and have been very well handled ,grazing behind a single hot wire in a rotational grazing system. |                |                                     |
