Assessor Comments	16 Soft One Mark PTIC Cross Breed heifers, weighing 405 – 536 kgs to avg 483.4 kgs full at assessment. Heifers present in forward store condition and have a good amount of condition on them with the stage of pregnancy they are at. Heifers have all been fetal aged by a vet on 04/05/22 showing them to be 4 to 5 months in calf. Heifers are PTIC to Good Quality Angus Bulls. Heifers are showing good depth, bone and growth for age. Heifers look to be developing into good quality future breeders. These Heifers would be ideal to take home calve down into a self-replacing herd operation or go into a trade operation. Heifers were purchased as weaners ex Taroom to be joined and kept on as future breeders. With a change in business direction, the heifers are now being sold PTIC. Please note this vendor has 6 lots in this sale.
