Frame		Quality Grades		Store Condition	
Large	100%	Very Good	100%	Fwd Store	100%

Temperament

Yards	Crush	Paddock
Quiet: 9 head	Quiet: 9 head	Temperament not assessed in Paddock

Heifers were very easy to work throughout the assessment procedure.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: Presented is a line of 9 PTIC Shorthorn & Shorthorn cross heifers. Averaging 524kg empty, these heifers have shown their growth performance through these seasonal conditions showing ideal large frames as well as an even body composition. Heifers were joined to the Barana Angus Bull for 6.5 weeks. This bull was selected due to his low birthweight. Heifers are due to commence calving in September through to October 2022. Heifers are 19 to 21 months of age, August/September 2020 drop. A great opportunity to secure a line of young, quiet, stylish Shorthorn & Shorthorn X Angus females, PTIC to the LBW Angus bull.
