Assessor Comments	An attractive line of Angus heifers PTIC to LBW Angus sires to commence calving in mid September. These heifers are the top draft being offered in two lots of 28 as a run out the gate (56 heifers in total). They have been joined to specifically selected Dunoon, Landfall and The Glen Angus sires, chosen for low birthweights. A copy of their pedigrees is attached to the assessment. These heifers are 3.5 to 5 months in calf, have a tight 46 day joining and are up to date with their health treatments. All the right steps have been taken to ensure these heifers are in good shape for calving.
