Handled With	Excellent mob of Angus heifers to handle. Properly educated, worked around yards with absolutely no fuss. exactly how you want your cattle to be. Bikes , Dogs , On foot , Vehicles
Assessor Comments	A very nice small line of EU accredited Angus PTIC heifers. As mentioned earlier in assessment principally bred via Karoo Angus sires over many years with some Millah Murrah bulls added recently. Absolutely dead quiet to handle and work around the yards. PTIC to the low birth weight Angus sires for an indicated August/ September calving would be a very nice addition to any herd or ideal for the small block heading into the breeding world. In perfect condition, just how you want your calving heifers to be. Little to do here but wait out the time until August. Well worth a close look.
