The weaners handle well and self controlled in the yards and throughout the weigh box in general quietly and calm. Normal fidgeting or discomfort shown when cornered in the crush/ weigh box yet settle when reunited with the mob. With continued handling during the weaning process between assessment and delivery they should settle more.

Assessor Comments	Offering 63 very good quality HGP free steers. Steers stand on wonderful bone with great length & stretch with very tidy heads. Steers are perfect to put onto a winter oats crop or put on feed to get to a heavier feeder weights. Steers are a lovely even line from 227kg to 362kg to average 298.6kg(full) with the entire drop being offered. The weaners handled very well considering they have only been spilt from their mothers on Monday. Vendor will continue to handle these steers until delivery. *1 x steer with an old slight blue eye scaring*
