Assessor Comments	Buyers a good 4 deck line of good quality Xbred heifers that were purchased as light weigh weaners from Maranoa & Warrego districts. Heifers are good xbred types that would ideally suit to go onto oats and take through to heavy feeders or slaughter weights. There is good compensatory gains to be had due to being in hand for two days prior to assessment and a big walk to the yards. Please note 1 heifer had a slightly swollen navel & a second had some fly rub marks not considered detrimental.
