Assessor Comments	A good line of crossbred heifers. All good flatbacks. Heifers are well grown in good store condition. 3 heifers did want to run around in yards but nothing aggressive. Majority of heifers show good bone and type. 1 Charolais cross heifer is small frame and fat conditions and may not grow out to large frame. Heifers have had very wet conditions for the past 2 weeks but doing well now with conditions drying out. Please note: Photo and video showing fat droughtmaster heifer is not included in mob - also not included in assessment. Note: 15 hours curfew at assessment. Potential for these heifers to put on weight quickly and suit trade/export feeder markets. Would also suit restockers looking for a small number of future breeders. Vendor has another 3 lots this sale.
