Assessor Comments	Buyers today on offer we have 20 Unweaned Steers. Majority of the Steers are of a Santa, Droughtmaster, Brahman Cross Cow herd and are an average weight of 228.4kg on delivery. All Steers are bred in light forest country and are ready to perform given the right opportunity. The Steers are still currently running with the Cows however are ready to be weaned. Its a credit to the breed to see how well the Steers have grown. Vendor had pretreated the cattle a week ago to help with clearing if required. Please note these cattle are in the Tick area and will require clearing to enter the clean area and this will be at the purchaser's expense.
