	The steers were generally good and settled in the yards prior to and after assessing. In the crush the unsettled steers just tended to keep trying to push through the front of the crush and would not settle or stand still. They would then exit the crush quickly. The others would stand quietly and exit the crush in an orderly fashion.					
Handled With	Bikes , Dogs , Vehicles					
Assessor Comments	A line of good to very good quality EU accredited Angus steers. With medium to large frame they are showing good growth for age. The full drop of the steers are in this sale as well as a line of heifers. Note the second line of steers is a line of 7 Angus x Angus cross. Approx half the steers are out of own bred Angus cows by Booroomooka bulls M475(AI) or Booroomooka M410(AI), the other half are out of purchased Angus and Angus cross cows from Emmaville which are Clunie Range or Mundoo Angus blood. Note they are grass market eligible in that they have not been fed grain. They have not been fed cotton seed nor have they been treated with antibiotics. Two steers with slight blue eye spot in one eye and a number of steers with healing hair loss on face, around eyes and on the neck - not detrimental. Note vendor also has the sisters of these steers listed in this sale as well.
