Comment on Fat Score 1 Cattle Any score 1's are fit to travel any distances without any problems.

Vendor Bred Yes
 Stock History Bred out of a good quality herd of Red Angus females.
 Lifetime Traceable 100% of cattle in this lot are Lifetime Traceable
 Bloodlines All by registered Red Angus bulls purchased ex: Anama (SA). The genetic gain from introduction of these sires is really starting to be noticed.

Grazing Conditions Bred in traprock country that has enjoyed a very good summer season and currently an excellent winter. Still in the weaning process being fed good quality oaten hay in the yards.
 Returned to: Will remain in a holding paddock on very good feed until delivery.

Burr/Seed in Coat Noogoora burr on the head, in the coat and tail brush.

HGP Status The owner declares that the cattle have not been treated with HGP at any period of their lives
 Health Treatments Vaccinated 20/02/2022 5 in 1 (at branding)
 Chemical Residue Clear - No known history
 Eligibilities Russian Eligible Saudi Eligible PCAS Eligible
 J-BAS Score 6

Vendor Comments Part of the annual turnoff of weaners. Past buyers have expressed considerable satisfaction with the performance of these cattle. Have not had a tough day since birth so no setback at any stage. Best crop of weaners we have offered for many

years.

Temperament	Yards	Crush	Paddock
	Quiet: 122 head	Quiet: 107 head Slightly Stirry: 15 head	Temperament not assessed in Paddock
	These have started to quieten down very well since weaning with all the bellowing for the cows pretty much gone. Most handled very easily at assessment through the crush & in the race however there were odd few that were a bit keen in the race. They have only been through the race once prior to assessment however they will receive further education prior to delivery. Very quiet out in the bigger yards when being photographed and videoed. They do respond well to bikes and dogs in the paddock.		
Handled With	Bikes , Dogs		
Assessor Comments	Buyers, a line of Red Angus steers that come with a very good reputation and have attracted repeat buyers who have commented these produce above average performance. These will suit restockers to grow out and background for domestic or export feeder markets. The hard work of breeding and weaning them has been done. Steers very clean in the muzzle with no nasal discharge that is sometimes prevalent in weaners at this time of year and this indicates they are in good health. There were 3 that were ringed & 1 that was cut out of the entire line of 204 head on Wednesday 1st June. Also noted 1 steer with a few warts around one eye and another with a birth a mark. These bred on lighter country, history would suggest they will really hit their straps if they are exposed to crop or winter herbage. These have had no detrimental growth setback at any stage. They exhibit very good muscling, bone, softness, depth of barrel and great length. To be delivered as a "run of the gate" into even lines.		
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366 Parallel Assessed By : Tom Smart		
Delivery Period	13/06/2022 to 14/06/2022 (2 days)
