Assessor Comments	A line of Composite bred flat back Steers, weighing from 262-347kg to average 300kg full with an estimated delivery weight of 285kg. The steers were purchased out of the Tenterfield district as weaners in late 2021 and would have been carried through to heavy feeders, although with the current cold and wet conditions the Vendor has decided to not take them through winter. The Steers present in a store condition with a huge compensatory weight gain and will respond quickly to improved protein and nutrition. To assist with delivery the Vendor will deliver to the Tenterfield Saleyards - Please note short delivery period.
