	These steers are quiet to move through the yards and draft however some of the mob bounced around in the weigh box but settled quickly. I believe they will wean to be quiet to handle cattle.					
Handled With	Bikes , Dogs , On foot					
Assessor Comments	Here presents an excellent quality line of light weight Euro cross steers that have bred on strong Forrest country. They stand on good bone and exhibit plenty of length and grunt as you would expect from predominantly first cross cattle. The Hybrid Vigour in these cattle will ensure high weights gains and doing ability for the successful purchaser. These steers would be suitable cattle to grass or crop finish or would be equally suited to any heavy feeder market and most trade feeder markets. The vendor has pre-treated the cattle for ticks to help with tick clearing for the successful purchaser. Grasslands paperwork available. 2 steers with very slight horn regrowth.
