Assessor Comments	Steers worked very well through the yards. Have been educated and weaned properly, the odd steer turned around in the race and stirred up in the head bale, but settled down on their release.		
	Bikes , Dogs , Horses , On foot		
Assessor	62 PCAS, well educated, good to very good quality, soft steers bred in the light country. These steers are renowned good doing cattle and are expected to power ahead on good quality feed or crop. The tail of this mob has been removed leaving a very good run of steers. They are soft enough to suit backgrounding through to trade weight feeders and have enough frame, shape and quality to take through to export feeders or kill weights. Please note 3 steers were noticed to have small rub marks around eyes from fly. These steers are in ticky country but were treated at assessment and vendor offers them guaranteed clean on property for buyers wanting to purchase them in clean country. Vendor also has a further 28 Angus cross and Speckle Park cross steers in the same sale.
