Assessor Comments	Buyers, Here is a line of good quality Angus, Santa cross weaned steers that average 289kg. Steers present in good store condition, having good growth for age with plenty of length and depth of flank. Steers are very soft, smooth easy doing types with nice bone. They are very well bred being out of Clark & Tait (Powella Santa cows), Teelba Stn Droughtmaster & small percentage of straight Angus cows by top quality Stud Angus sires. Steers were good to work through yards. 2 steers had old blue eye scarring but not detrimental. Steers are grass only eligible and antibiotic free. Note vendor has other lines in same sale.
