Assessor Comments	Buyers, Here is a line of good quality Angus Santa cross weaned heifers that average 279kgs they would make great future breeders as no heifers were retained. Heifers present in good store condition, having good growth for age with plenty of length and depth of flank, are very soft, smooth easy doing types with nice bone and femininity. Heifers are very well bred being out of Clark & Tait (Powella Santa cows), Teelba Stn Droughtmaster cows by top quality Stud Angus sires. Were good to work through yards. These heifers would make ideal future breeders. Heifers are grass only eligible and antibiotic free. Note vendor has other lines in same sale.
