Comment on Fat Score 1 Cattle	All heifers are strong, healthy and will be fine trucking any length		
Vendor Bred	No Vendor has owned stock for 6-12 months		
Stock History	Heifers were all purchased as weaners and light restockers out of coastal saleyards in the ticks with the idea of growing into feeder heifers		
Lifetime Traceable	A percentage of these heifers are lifetime traceable with some of the tags falling out and being replaced with orange tags		
Grazing Conditions	Light forest country with some improved pastures Returned same		
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment		
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Vendor Comments	A nice line of droughtmaster x heifers suitable for back-grounding, fattening on oats or putting bulls with. Heifers have excelled since arrival and will continue to go forward on any sort of country. Heifers are well handled

Assessor Comments	A great opportunity to buy a nice line of droughtmaster x heifers. The heifers were purchased as weaners directly out of coastal sale yards in Queensland with the idea of selling as feeder heifers. Heifers have a good temperament with a handful stirring up in the crush but nothing to be worried about. Being off light country these heifers will excel on quality pastures. A percentage of these heifers are perfectly suited for a Woolies or Coles job and the entire mob would be ideal for either oats fattening/backgrounding or to join to bulls. BUYERS PLEASE NOTE THE VENDOR HAS ANOTHER TWO LINES OF ANGUS X AND CHARBRAY X HEIFERS IN THE SAME SALE.
