Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Quiet: 26 head Slightly Stirry: 2 head</td><td>Quiet: 19 head Slightly Stirry: 9 head</td><td>Temperament not assessed in Paddock</td></tr></table> Steers worked well through the yards and crush considering it was their first time. Some steers became agitated in the crush but once released back into the mob they settled. Steers moved freely in the yards and behaved typical of cattle just weaned. A continued weaning program by the purchaser would be very beneficial to the steers. Assessor Comments	Buyers here is an opportunity to purchase a quality line of vendor bred Angus and Angus cross steers. These steers are ideal to put away on crop or grass and take through to either trade or heavy feeder weights. Please note one steer had a cloudy eye at time of assessment. One steer had a touch of white on the pizzle area. I would suggest that a percentage of these steers would be self weaned given their age and the current seasonal conditions. Steers sold in the past are well known performers and are highly sort after by repeat buyers. Please note vendor also has another two lots of steers and one lot of heifers in the same sale. *Please note delivery dates*
