	Quiet: 74 head	Quiet: 70 head	Quiet: 74 head

	Very good - these steers are well educated and handled with ease with only one steer observed to be swift gaited and eager to return to pen while in the race. these cattle were held in small paddock and yarded on the morning of assessment; freely walking into the yards with minimal effort
Handled With	Bikes
Assessor Comments	A great opportunity to secure a very good line of VGQ HGP free vendor bred steers with plenty of softness suitable for a wide array of southern markets. These cattle will grow into tremendous bullocks or feeder cattle. These steers were a pleasure to assess - a credit to the vendor. They display excellent thickness, length and muscling ability and without a doubt will continue to grow out into high yielding steers with an outstanding carcass. These steers have been sold numerous times on Auctions Plus and have always satisfied buyers expectations. Please Note: 4 steers observed with flybite, 3 steers showing greater than 40% Bos indicus content (1/4 hump). I1 Charolais x stag as depicted Ideal feedlot weights with a full weight range 364 - 495 kg (131kg window) @ Assessment.
