Vendor Bred	Yes
Stock History	Brought down to Doncaster as weaners.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Steers all out of Brahman & Charbray Cows by Brahman & Charbray Stud Bulls. Majority of these steers show minimal hump due to Charbray infusion.
Grazing Conditions	Recently Improved body of predominantly Buffel with presence of some bluegrass and native herbages after rain event in May. Digestive systems are very healthy and these steers are on the up ready to bound ahead on good feed. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	Treated with Compudose 400 at Weaning
Chemical Residue	Owner Declares Nil Residues.
J-BAS Score	6
Vendor Comments	Good line to handle in the paddock with bikes and dogs, have improved noticeably over the past 4 months and only selling to make room for weaners and younger cattle with the feed available. 2 weeks tailing as weaners.

Frame	Quality Grades	Store Condition	Muscle Score

	Very Large	5%	Excellent	5%	Fwd Store	60%	C	100%
	Large	85%	Very Good	85%	Store	40%		
	Medium	10%	Good	10%				

Temperament

Yards	Crush	Paddock
Quiet: 80 head Slightly Stirry: 8 head	Quiet: 76 head Slightly Stirry: 12 head	Quiet: 88 head

These steers were good to work with, and the draft prior to crush-side assessment was completed through a round yard. During individual assessment (crush-side) a large majority of the steers were happy to stand without pressure. At mouthing, a higher percentage were noted to be uncomfortable with the close interaction. Steers were easy to handle in bigger yards in a mob and easy to count through gateway etc.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs

Assessor Comments 4 decks of short turn around, Brahman and Charbray steers of good health and ready to surge ahead and make bullocks on good feed. Ideal to finish on grass, grain or oats. Good frame, bone and temperament. The feed available (predominantly buffel grass and herbage/weed) is green yet light due to rain event in May which is providing these steers a rising plane of nutrition although there is still plenty of compensatory gain to be had if going on to quality feed. There were 75 x No.0's, 10 x No.1's and 3 x late No.9's (Calendar Year Brand). All steers trucked to Doncaster as weaners. Out of a quality Brahman and Charbray female herd by good Quality Brahman & Charbray bulls. 1 steer noted to have Fly Bite in the neck area at assessment. Majority of steers have been treated with Compudose 400 at weaning however the No.1's in this lot are HGP Free. Steers range from 420-530kg at assessment with a large majority being 450-500kg.
