Steers were weaned over the weekend prior to assessment, so normal weaners being off mum, but have settled down extremely well. Flowed through race & were settled in weigh box.

Handled With Bikes , Dogs , On foot , Vehicles

Assessor Comments A cracking run of Droughtmaster X Steers. Steers have good bone and length and would be ideal to take through to heavy feeders or bullocks. Well bred cattle that go on to preform. Steers were very good to handle and moved through the yards without rushing. Very odd steer, just needs horn tidied up or has small calf horn. # Antibiotic free & eligible for grass programs.
