Weaners flowed through the yards well. The odd steer stirred under pressure in smaller yard and in crush but settled straight away once back with mob.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	Buyers 3 decks of PCAS eligible Droughtmaster & Droughtmaster X steers that present in fresh store condition & best described as being large frame. Steers have been weaned in two stages with the first lot weaned 8 weeks ago and the last of them being weaned on the 16/06/22. A reputable line of steers that show plenty of bone, length & frame that are ready to grow out on crop or improved pasture. At assessment 2 x steers showed signs of rub marks around eyes & 1 x steer with a blue eye that was treated at assessment not seen as detrimental. This lot also includes 14 x head that were cut and marked 8 weeks ago but have all healed up. A good line of steers that will see plenty of compensatory weight gain for buyer.
