Assessor Comments	Buyers, here is a good line of top quality vendor bred weaned EU straight Angus steers that are Bovi-shielded averaging 258kg. This line of steers are very well bred by some of the top genetics in the Angus pedigree. Steers present in good store condition and have very good muscle, bone and volume with plenty of capacity . Steers are by Corack top quality Angus cows by well above average Texas, Raff & Ascot stud sires all with IMF 6.5 plus. These cattle have a very good reputation for performance on grain and grass, with all the hard work done. All cattle are very good to handle both in paddock and through yards. Steers are grass only eligible and antibiotic free. Note 4 steers had small dot of old blue eye scaring and 2 steers had small white under line. Vendor has other lines in same sale.
