Assessor Comments

Buyers here is a good line of quality line of vendor bred heifers that average 354kg. These heifers are ready to join, presenting in good store condition. Heifers have very good bone with plenty of volume. These heifers have very good length of body with muscle and femininity. These heifers are genuine young cattle (35 HD where mouthed solid milk tooth). These heifers are out of a medium to large frame cow herd by top quality Stud sires. These heifers where very good to handle both in and out of yards. Heifers would make great future breeders.
