Assessor Comments	A very good quality line of E.U Accredited Hereford Weaner Steers. Steers are very quiet and show all the characteristics of many years of diligent breeding. They come from one of the best Hereford herds in this area. Steers are the 2nds of the drop. They range from 230 to 290 kg seven hours off feed at assessment. They average 263kg and have a projected delivery weight of 258 kg. Suitable for either grass [PCAS Eligible & Antibiotic free] or feedlot fattening . The Steers will remain on the Cows on good feed until delivery and the Cows are naturally starting to wean calves and dry up. They were dehorned at the Calf marking and their eyes are excellent. Please note Vendors have the bigger Steers and Heifers in this sale also.
