Assessor Comments	36 Angus and Angus cross weaned heifers, weighing 276 - 424kgs to ave 315.9kgs full at assessment. Heifers present in forward store condition and doing very well and given the right opportunity should continue to do well with heifers having all treatments up to date ready to power the kgs on. Heifers are developing into good quality soft females and would be ideal to take home and join to the bull of your choice or put into the supermarket trade as heavy feeders or kill heifers. This is a genuine sale heifers only being sold due to change in business direction. Please note 2 heifers were note to have small old pink eye scarring
