Assessor Comments	A good draft of No 1 Cross Bred Heifers, would suit to either feed or grow out to Breeders. The Vendors have used the best available genetics in their herd, and these represent an oportunity to secure a line of very good quality Cross Bred Heifers. The cattle includes one heifer with residual fly bite marks, which are evident but no affect to the Heifer, which will heal with the recent back line application. One Heifer with a small horn on the off side. The Heifers were pre-treated with Dectomax pour on on the 27/6/2020.
