HGP Status	Treated with compudose 400 day, 1/3/22
J-BAS Score	6

Vendor Comments

Part of our annual turn off of weaner steers, these are the lead of our 1st round Charbray type weaners. The temperament of these calves is exceptional for 1 day off cows in the yards. Normally these steers would be carried through to heavy feeders.

Frame		Quality Grades		Store Condition		Muscle Score	
Very Large	5%	Very Good	45%	Fwd Store	60%	B	8%
Large	44%	Good	49%	Store	40%	C	92%
Medium	49%	Fair	6%				
Small	2%						

Temperament

Yards	Crush	Paddock
Docile: 36 head Quiet: 100 head Slightly Stirry: 8 head	Docile: 30 head Quiet: 103 head Slightly Stirry: 10 head Stirry: 1 head	Temperament not assessed in Paddock

Steers have received some education however the last of them have only been weaned for 1 week by the expected delivery date. Given it was their first handling through the yards, they drafted in a pound draft and then through the race sensibly. A small percentage became slightly agitated on the scales at weighing however majority walked in and stood contently and waited for the gate to open. Temperament of the steers is exceptional given thy are only in the early phase of weaning training.

Handled With

Aerial (Helicopters, gyro's and planes) , Bikes , Horses , On foot , Vehicles

Assessor Comments

STEER BACKGROUNDERS & BULLOCK FATTNERS TAKE NOTE OF THESE QUALITY VENDOR BRED FLATBACK & SOFT HUMP, WEANER STEERS. A very good line of young Charolais/Charbray & Droughtmaster X. Well suited to southern markets with plenty of softness about them. Steers are Large to moderate frame, displaying plenty of bone and quality confirmation. These are Freshly weaned steers in forward condition however show plenty of growth potential, they are on a rising plane of nutrition and have over 250 days of HGP left to run! All display tidy heads and an excellent temperament. The mothers of these steers is heavily influenced by the highly regarded Bungoona bloodlines with Charolais genetics through the core breeding herd including River Glen. Assessed 1 to 5 days off mothers & handled very well through the draft and scales. 60% flatback with 40% minimal hump height steers. All the hard work has been done, ready for a purchaser to take advantage of growing out these steers further,
