heifers worked well through yards with a % becoming slightly agitated when being mouthed but settled quickly when returned to the mob

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot
Assessor Comments	Buyers a good 3 deck line of 2 & 4 tooth heifers predominately showing good softness bone and length . Heifers ideally suited to the heavy Trade feeder or would be perfect oats heifers to fatten and take through to slaughter as there is good compensatory gains to be had due to most being weaner mums and the extensive handling over last 10 days, alternatively most of these heifers have the quality to retain in breeding operation as they have all come from very well regarded breeding herds in Western Queensland. Please note 2 heifers noted with slight blue scarring in one eye not considered detrimental also several heifers observed with slight fly rub rub marks. Vendor has another lot of santa 2 tooth heifers this sale and 12 decks cows in Eastern States sale
