Weaners were a pleasure to handle working well through the yard and race with only small % becoming slightly agitated in crush but settled quickly once being returned to mob ,strs have had an extensive weaning programme in yards and tailing out in pdk

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot
Assessor Comments	Buyers a great opportunity to secure VGQ No 2 EU weaned strs .These strs are the younger draft of entire run of the Biddenham steer weaners and are out of Large framed Xbred Cows by Gowrie Simmental , Gidyea Brangus and Ultrablack and Valeravale Droughtmaster sires, they show great length , bone and softness with tremendous weight for age and would be Ideal to take through to Lucrative HQB EU Slaughter weights or Heavy EU feeders. Rarely do strs of this quality come on the market as weaners , all the hard work has been done with extensive yard weaning and educating in paddock so strs are ready to power ahead on grass or oats as they have been achieving weight gains of 0.7 kg /day since weaning on frosted country . Please note a few steers show some very small weaner horn due to dehorning miss at branding and 2 steers observed to be later cut at weaning Vendor has 3 decks of heavier brothers and 2 decks of sisters in the same sale.
