These heifers were very good to assess, heifers were weighed in a way box with minimal movement/ stirry behaviour noticed while being weighed, these heifers appreciate time and space while being worked and were handled with no dramas at assessment. They have been broken in and always worked with a team of dogs and are good to handle. competent cattlemen will have no dramas

Assessor Comments Buyers, 61 British and Euro infused heifers ready to be taken onto heavier weights. The majority of these heifers present in store condition with an approximate average weight of 318kg at delivery. The heifers would grow into good breeder cattle if given the chance, they poses enough Tropical breed content to make a good productive cow and with the right bull selection hit flat back markets with the progeny. They present as a good article to take home and join to the bull of your choice or alternatively would also be ideal to be introduced to crop and sell into heavier markets. With the frame these heifers are carrying good compensatory gains would be expected once settled in if put onto crop. please note vendor has another line of lighter weight less contented heifers.
