These steers were very good to handle through the yards. A lot of emphasis is put on the handling and breaking in these cattle at weaning.

Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A good run of weaned Angus and Angus cross Hereford steers. Properly weaned, put on crop and just starting to go forward since being weaned. There is a range of weights between the top and the bottom, manly due to age difference. The steers show plenty of quality, good bone and I would have no hesitation in recommending these cattle to any prospective purchaser. Ideal cattle to run on as heavy feeders or grass fed kill steers. Buyers please note some steers with signs of ringworm which seems to be common in the area at the moment and at this time of year.
