	Cows worked well through the yards with no fuss. Well handled, quiet cows. The largest white brahman heifer calf however became very upset and agitated when drafted off with the other calves and did not settle down until reunited with it's mother.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	A small run of good quality, well handled Brahman cows and calves that were purchased as PTIC cows. These cows are mixed ages, being from 4-12 years old and it is thought that the older 2 cows being brahman would all have no trouble raising this calf and another given reasonable conditions. They would be ideal to re-join to top up breeder numbers or put on crop and take through to a split. With the cows are doing a great job on the calves averaging 126kg they would appear to a fairly quick return article.
