Assessor Comments	A tidy run of quiet, well handled Crossbred heifers, that have been running on lighter trap rock country and joined to Angus bulls, and black Simmental bulls selected for their suitability for maiden heifers. They would suit someone wanting to top up breeding numbers or calve out and sell as a cow and calf unit. These heifers are in store condition due to the lighter country, excessive rain, and would be expected to power ahead and continue to grow out on quality feed. 25 heifers are red tags (better than 4 months in calf) with only 3 being blue tags (under 4 months). PLEASE NOTE Vendor has an additional 28 PTIC Angus and Angus cross heifers in the same sale making a neat 2 deck load and vendor would appreciate delivery on the same day if possible.
