Assessor Comments	Restockers here is a tidy run of quiet, well handled Angus and Angus Cross heifers, that have been running on lighter trap rock country and joined to Angus and Black Simmental bulls selected for their suitability for maiden heifers. These heifers are in store condition due to the lighter country and excessive wet and would be expected to power ahead and continue to grow out on quality feed. 25 heifers are red tags (better than 4 months in calf) and only 3 being blue tags (under 4 months) providing a quick return on investment. PLEASE NOTE Vendor has an additional 28 PTIC Crossbred heifers in the same sale making a neat 2 deck load and would appreciate same day delivery.
