Handled With	Good cows to work and draft, very quiet in the paddock and will come up to you, Bikes , Dogs , On foot , Vehicles								
Assessor Comments	Good young Crossbred type cows in calf to the Noonee Angus bull. These are only young cows and have produced some excellent vealers to date. The calves that have hit the ground already are strong and blocky calves and are throwing majority black in colour. The cows have had calves weaned off them at assessment and present in strong forward condition, ready to calve again and raise another calve. They have been very well handled and are a pleasure to move and work in a paddock and will come up to you. The cows are right up on the job and majority will have calves on the ground before the spring, ready to go and take advantage of the spring flush we are bound to have.
