Assessor Comments	Quality line of Angus EU Heifers. Good line of Angus Heifers to take on and join to bull of choice. Vendors have been using Bongongo genetics for 15 years and selecting the high indexing bulls each year. These heifers are surplus to vendors requirements, which would still make productive females in the future. Small tail removed. Please note 5 Heifers noted with old blue eye scar, approximately 15-20 heifers with ring worm on head/neck, not detrimental in agents opinion. One heifer noted with white strip up belly.
