Assessor Comments	Annual offering of the Elliott Family "Cumberoona" bred Spring drop weaners with this lot representing the draft of heifers with a tail removed. A large proportion of these heifers appear to be the younger calves in the drop with options to grow out and join to retain as quality breeders or fatten/background for other lucrative Angus markets. Properly yard weaned and race trained, these cattle are bred in the hills surrounding Lake Hume, the progeny of classed volume cows and carry an excellent reputation for performance. Noted an odd weaner with light ringworm and 4 heifers with a slight pinkeye scar. PCAS Grass Assured declaration available at purchasers request. Vendor offering 75 heifers and 167 steers over four lots in this auction.
